

A WORLD OF SOLUTIONS

FACTORY

Right technology at the right time and at right price has brought AcmeFIL Engineering Systems Pvt. Ltd. to be at an enviable position of being second to none.

Rising to the needs of the industrial requirements to meet the challenge of the changing scenario, has been the driving force for AcmeFIL Engineering Systems Pvt. Ltd. Having provided optimum solutions, we have kept competition at bay making ourselves favourites in the industry.

DESIGN

AcmeFIL Engineering Systems Pvt. Ltd. formed by a group of young technocrats, who have had hands-on experience as actual user, have helped design equipments to ensure optimum performance, trouble free operation and simple maintenance. These factors have today made us No. 1 suppliers of top of the line QUALITY equipments. The manufacturing range consists of Spray Drier, Fluidized Spray Drier, Flash Drier, Ring Drier, Spin Flash Drier, Evaporators, Bag Filter, Hot Air Generator, Membrane Systems and constant innovation adding to the list of the equipments.

AcmeFIL Engineering Systems Pvt. Ltd. has had many firsts to its credit. Capital equipments, once considered fearfully expensive to be used in process industry are now made available at affordable prices even to the small scale industries.

MANUFACTURING

Our quest for innovation has placed these equipments into unimaginable arenas like pollution prevention and control apart from all process requirements.

AcmeFIL Engineering Systems Pvt. Ltd.'s ever striving Research & Development department, supported by its marketing strengths has been catering to new dawning industries.

It is equipped to meet the challenge of industrial problems in providing the right solutions.

ACME - as the meaning is - ' *The Highest Point Of Perfection* ' and AcmeFIL today strives to fill in the gap between the PRESENT & ACME.

PILOT SPRAY DRIER

DESPATCH

ACCOMPLISHMENTS
